GLASSVAN® SURGICAL BLADES

Bringing Performance to Another Level

GLASSVAN® has been a trusted name in surgical blades for over 25 years. State of the art technology ensures consistent, high quality blades with clean, sharp cutting edges. GLASSVAN® surgical blades and handles provide you with the quality and performance you deserve.

Bringing Reliability, Innovation and Value to Healthcare®

GLASSVAN® Surgical Blades

Quality and Performance

- Computerized grinding and proprietary polishing processes ensure consistent, clean, sharp cutting edges
- Two VCI strips ensure product and packaging integrity (reduces risk of blade piercing foil packs)
- Produced from high quality, high durability Swiss Carbon and Stainless Steels
- Manufactured in FDA inspected facilities and conform to ISO 7740 and ISO 13485

A Full Range of Surgical Blades To Meet Your Needs

- Carbon Steel and Stainless Steel blades in sizes from 10-25, a Stitch Cutter blade, and #60 and #70 autopsy blades (Sterile). This includes sizes 10A, 12B, and 15C. Select sizes available as Non Sterile
- Carbon Steel miniature blades in sizes 61, 62, 64, 67, and 67MIS (Sterile).
- Podiatry blades including Stainless Steel sizes (9, 17, 81, 84, and 88) and Carbon Steel sizes (312, 313, 314, and 316).

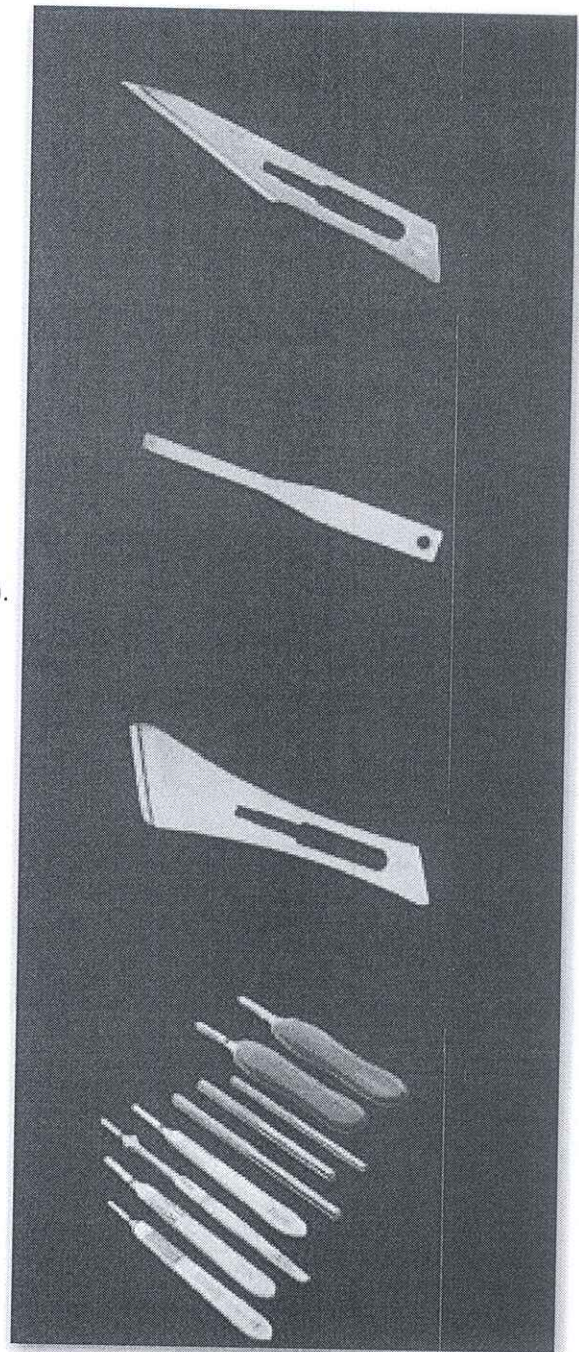

GLASSVAN® Surgical Handles

A Full Range To Support Surgical Blade Choice and User Ergonomic Preferences

- We offer standard, round, long, metric, and plastic surgical handles. Sizes include: 2R, 3, 3M, 3L, 4, 4L, 5, 5P, 6, 6P, 7, 9, and 74.
